

# Solutions

**For original procurement and  
retrofitings of driver and  
passenger seats**

**We turn a good seat into a perfectly tailored  
seating experience for drivers and passengers**

# Passenger seats

## Tailored solutions for all customer requirements

Passengers like to sit comfortably.  
But passenger seats also need to meet  
requirements when it comes to crash  
and fire safety. We can help here too.

### Outstanding repair service

Refreshing for worn  
passenger seats

Covers with newly  
developed materials

Cladding with new  
foam cores

Guarantee for top fire  
safety standards

### Combining design with function

Premium materials for  
maximum passenger comfort

Custom designs

Individually adjusted bases

Full certification for  
passenger seats

# Driver's seats

## The most comfortable mobile workstation around

A comfortable seat can make all the difference when it comes to protecting the back, neck and spine. Ergonomic sitting can boost concentration and make the journey safer for everyone.

### Good to know

**Expertise:** we work with all conventional seat models and have our own upholstery workshop.

**No idling:** you receive a replacement seat during the repair period.

### Specialists for special solutions

Fully certified driver seats as per EN 45545

Longitudinal and lateral horizontal suspension

Armrests and control lever consoles with control functions

Customised bases

Wide range of cover materials: E-leather, fabric, real leather

Customised headrests

# Seat overhaul

**We help you save. Many of our seats can be used again immediately after an overhaul, protecting your budget and resources.**

We offer personal consultation and suggest concepts and designs.

We provide a lifetime spare parts supply.

We continuously develop both our engineering and our product range.

# We have the

**If you have a problem you cannot solve, we can help.**

We cooperate closely with major seat manufacturers like Grammer, ISRI, SKA, Pilot Sitzsysteme and KAB. They provide us with the base material that we tailor to create your perfect seat.

## **Armrests**

We make sure that the armrests are either fixed, steplessly adjustable or foldable on both sides.

## **Upholstery and cover materials**

We help you choose the right materials, while making sure you meet fire safety standards.

## **Accessories**

You decide which head- and footrests you need. We supply them either fixed, foldable or height-adjustable.

# solution!

## Cushion depth adjustment

The solution for tall drivers. The cushion depth adjustment relieves strain on the thighs.

## Pneumatic lumbar support

The height and depth of the pneumatic lumbar support can be steplessly adjusted using two separate air cells.

## Functional armrest adjustment

We fit every seat with the right integrated console and brake switch. The armrest adjustment and rotational direction ensure comfortable control and allow the driver to rotate the seat quickly.

## Air-spring seats with automatic height adjustment

We know the various pneumatic and mechanical suspension systems. The level adjustment automatically adjusts the seat to the originally set height, regardless of the driver's weight.

# Oscar Föh AG

**From road and rail to off-road, we are the specialists for workstations in passenger and goods transport, with 50 years of experience.**

Our goal is to suggest the solution that is best for you. It is this that makes us such a valuable partner to our customers, including Stadler Rail, Bombardier Transportation, Menzi Muck, Swiss federal railways SFR and all public transport authorities. For years, they have relied on our products and outstanding repair service.

We are also expert partners when it comes to spare parts supply, filters and filter elements, air conditioning and AC service units, as well as heaters and coolers.

**“In terms of value for money, we are very pleased. There is always someone there quickly if we have any problems.”**

*Arthur Debrunner, purchasing, Prematic AG*

**“Oscar Föh goes to great lengths to find the ideal solution and make it as easy as possible for their customers to do business.”**

*Jürgen Schütz, maintenance, ElringKlinger AG*
